The New Transit Town: Best Practices in Transit-Oriented Development

Numbers in italics indicate tables or photographs.

- A
- ABCs of TOD zoning, 58–9, 69
 - Ackerman, Frederick, 238
 - active and walkable streets, 70–4
 - actors in TOD, 42–54
 - adaptive reuse, *see* Mockingbird Station
 - Addison Circle (Dallas), 50, 62, 69, 77, 160, 164–70, 165, 169
 - affordable housing (*see also* housing; multifamily housing)
 - Barrio Logan's Mercado, 219
 - financing, 50, 96, 102–4
 - importance of, *xiv*, 23, 26, 190
 - Lindbergh City Center, 183–4, 190
 - Ohlone-Chynoweth Station, 194–5, 201, 204, 207–8
 - Rosslyn-Ballston Corridor, 135, 136, 151
 - air rights
 - development, 91
 - lease, 103
 - sale, 99
 - Alliance for Transportation Research Institute, 4
 - amenity retail, *see* retail projects
 - Annual Report on New Starts* (FTA), 12–3
 - Arlington County case study, *see* Rosslyn-Ballston Corridor
 - Arlington County mode share, 30
 - Atlanta case study, *see* Lindbergh City Center
 - Atlanta Regional Commission (ARC), 177, 187
 - Autler, Gerald, 10
 - auto-friendly TOD, 160, 171
 - auto-oriented transit, 5–6
- B
- barriers to TOD, *see* challenges facing TOD
 - Barrio Logan's Mercado (San Diego), 47, 50, 53, 212–8, 218
 - BellSouth, 176, 180–1, 187, 189, 190, 191
 - Belzer, Dena, 10
 - benchmarks, performance, 22, 39
 - benefits of TOD, 3, 7, 8, 9, 115, 245 (*see also* value capture)
 - benefits of transit, 2, 6
 - Bernick, Michael, 8
 - Bertolini, Luca, 32
 - bicycle access, 25, 139–40
 - block size, 72
 - bonds, 89, 109
 - brownfield redevelopment, 107
 - building scale and design, 59, 71–2, 74
 - "bulls-eye" development concept, 133, 135, 145
 - business plan, 88, 97
 - bus transit, 117, 119, 139, 214
 - bus versus rail debate, 36–7
 - busways, 33
 - buying power, low-income neighborhood, 104, 219
- C
- Calthorpe, Peter
 - TOD typology, 33
 - urban design principles of, 7, 8, 213, 214
 - car ownership costs, 23, 237
 - car sharing, 29, 47
 - case studies, planning and regulation, 61–2
 - Center for Neighborhood Technology (CNT), 4, 110
 - Center for Transit-Oriented Development, *xv*, 4, 239
 - Central Park Market at Del Mar Station (Pasadena), 61, 63–4, 67–8, 75, 77, 78
 - Cervero, Robert, 8, 117
 - challenges facing TOD
 - economic, *xiv*, 4
 - financing, 84, 172, 214, 244
 - institutional, *xiv*, 4, 69, 78–80, 126–7
 - logistical, 43–54
 - overview, *xv*, 10
 - choice as goal of TOD, 25–6
 - Cities and Rails* (Bertolini and Spit), 32
 - Clarendon Market, 148
 - Clean Air Act (CAA), 177–8, 186
 - community involvement, *see* public involvement
 - community members as actors in TOD, 42, 51–4
 - commuter town as TOD type, 36, 38
 - condominiumization, 99
 - Congress for New Urbanism, 4

connectivity, lack of, 164, 187
Cook County mode share, 30
Courthouse Station, 149
The Crossings (Mountain View), 62,
64, 66, 77
"customized" TOD projects, 63–4,
69

D

Dallas Area Rapid Transit (DART),
43, 156
Dallas case studies, *see* Addison
Circle; Mockingbird Station
definition of TOD, 4, 21–32, 39
demographic changes, 3, 10–12,
234
density (*see also* building scale and
design)
Barrio Logan's Mercado, 222, 227
excessive, 190
housing, defined, 37
and location efficiency, 24
Ohlone-Chynoweth Station, 200,
201
opportunities created by, 10

151
and transit use, 117, 151
and vehicle miles traveled, 233
design guidelines
Addison Circle, 166
Barrio Logan's Mercado, 222
importance of, 7, 170, 213, 226–8
multimodal streets, 120
Ohlone-Chynoweth Station, 199–
200
pedestrian, 139–40
street, 26, 58, 70–74, 126–7
TOD neighborhoods, 120
traffic and parking, 118–23
design review process, *see* planning
framework
developers (*see also* nonprofit
developers)
as actors in TOD, 42, 49–51, 97
and affordable housing, 102
goals in TOD, 44
incentives for, 101, 102, 170
as investors, 88, 94
Rosslyn-Ballston Corridor, 134
selecting, 87, 172–3, 226
development
cost of greenfield, 235

development (*continued*)

diversity, 31
flexibility, 32
intensity, 135
joint approach, 6–7
new approach, 20
opportunities spectrum, xiii
predictable environment for, 47,
132, 150, 159, 168
transit-adjacent, 4, 196
transit-related, 6–8
development framework, *see*
planning framework
development-oriented transit, 5
development process, *see* planning
framework
Downs, Anthony, 14

E

economic diversity, 151
economic integration, xiv
economic value, *see* value capture
economy of scope, 240–1
employers, value capture for, 28
endowment funds, 95
Enterprise Social Investment
Corporation, 220, 225
equity investors, *see* investors
equity participation in TOD, 92–3
equity real estate funds, 95
expenditure density, 238

F

federal government
as actor in TOD, 44
funding for place making, 102
goals in TOD, 44
HUD Loan Guarantee Program,
219
Federal Transit Administration
(FTA), 12–13
fenestration, 72
financial return, *see* value capture
financing
bonds, 89, 109
challenges, 84, 106, 214
components of TOD, 96, 101–9
gaps, 103, 110, 166
mezzanine debt, 97
process, 85–6
products, 94–96
public sector role in, 84, 110
structure, 93–101, 220

financing (*continued*)
tax increment, 101, 109, 165, 217
fixed guideway transit, 12
flexible design, 50, 97, 98, 99
foundations, 88, 105
functional characteristics of TOD,
21–2, 39
funding gaps, 103, 110, 166

G
gentrification, xiv
goals of TOD, 20–1, 22–32, 44–45,
68
ground leases, 92, 94, 105, 109–10
groundwork for TOD, 86–9
growth strategies, xiii, 14, 66, 114,
213, 239
guidelines, *see* design guidelines

H
headways, 138–9
highway versus transit debate, 2
historical context for TOD, 5–9, 42,
238–9
historic preservation, 137–8, 151
historic preservation tax credits, 107
horizontal mixed use, 96, 97
households
expenditures, 236–8
size changes, 234, 236
value capture for, 28–9
housing (*see also* affordable
housing)
costs of, xiv
density and TOD goals, 25
home size, 234
market-rate, 161, 196, 206, 208
options in, 26, 102
shift in preferences, 12
Hughes, Ken, 161–2, 164, 171–3

I
implementation strategies, xv, 226
incentives
for affordable housing, 103
for developers, 101, 102, 170
for mixed use, 105, 150
for reuse, 107
in zoning and permitting, 87
infill development, 2, 213
integration of TOD, 31, 186–87, 190
integration of transit, 59, 75–6
internal trip capture, 116, 123–4

investors
cultivating, 94
developers as, 88, 94
education of, 171
foundations as, 88
value capture for, 92

J
Jacobs, Jane, 217
joint development approach, 6–7,
196, 198–200
Journey to Work Survey (2000 US
Census), 30, 143

L
land banking, xiv, 104
land use
for active, walkable streets, 70
diversity in, 123–4
influence of transit on, 6
planning, 66
regulations, 102
and TOD effectiveness, 125
and vehicle miles traveled, 233
learning processes, 241
lenders (*see also* nonprofit lenders)
as actors in TOD, 49–51
concerns of, 99
goals in TOD, 44
and parking ratios, 108, 127
and retail projects, 104–5
level of service standards, traffic
flow, 120–1, 126–7
Lindbergh City Center (Atlanta), 51,
52, 62, 64, 77, 176–91
"livability" and TOD goals, 22, 233–
4
local governments (*see also* public
sector investment)
as actors in TOD, 42, 43, 47–9,
54
funding for place making, 101
goals in TOD, 44
planning framework, 170–1
redevelopment process, 134, 135
role in TOD, 89, 104–5, 108, 157
value capture for, 28, 89
location efficiency
and auto travel, 116–7
as goal of TOD, 23–5
and household expenditures,
236–8
and land use, 233, 234

location efficiency (*continued*)
 measuring, 244
 traffic and parking, 115
 and transit density, 26
Location Efficient Mortgage (LEM),
 29
low-income housing tax credits, 200,
 219

M

major credit tenants, 104, 219, 220,
 224, 225
market analysis, 48, 88, 239
Market Commons at Clarendon
 (Arlington), 62, 64, 77
market demand, 2, 3, 9–10, 147,
 148, 170, 243
market-rate development, 161, 196,
 206, 208
market scale, 12–13
Metropolitan Area Advisory
 Committee (MAAC), 216
Metropolitan Atlanta Regional
 Transit Authority (MARTA),
 176–80, 188
Metropolitan Place (Renton), 62, 66,
 68, 77
Metropolitan Transit Development
 Board (MTDB), 213, 222, 223
Metrorail (Arlington County), 133,
 143
mezzanine debt financing, 97, 225
mixed-use buildings, 97–100
mixed-use developments
 cross-subsidization, 98–9
 factor in success, 150
 financing, 96–97, 105, 106, 244
 internal trip capture, 123–4
 market demand, 147
 Rosslyn-Ballston Corridor, 132
 traffic and parking data, 126
 and transit use, 150
 and travel demand, 116
Mockingbird Station (Dallas), 156–
 73, 160–4, 161, 162, 163
mode debate, 36–7
model community, new, 243
mode share, 30, 123
multifamily housing, 138, 171–2,
 194 (*see also* affordable
 housing; housing)

 marginal cost of, 237
 in place and node balance, 45–6
 placement of, 73, 162
 politics of, 181–3
 ratios, 108–9, 127, 201
 regulations, 142

- parking (*continued*)
 - revised standards for, 50
 - shared, 108–9, 237
 - strategies, 109, 121–3
 - structured, 108–9, 205
 - underground, 160–1
- partnerships
 - affordable housing, 50
 - profit and nonprofit, 209
 - public, 54, 110
 - public and private, 49
 - Rosslyn-Ballston Corridor, 135
 - transit agencies and nonprofits, 50
- pedestrian environments
 - and location efficiency, 24, 25
 - "pedestrian friendly" defined, 70
 - Rosslyn-Ballston Corridor, 139–40, 144, 149, 151
 - and TOD effectiveness, 124
 - and transit share, 37, 38
 - value of, 30–2, 186, 190, 241
- pension funds, 95
- performance-based definition, 22–33
- performance measures, 22, 39, 123–4, 126, 244–5
- phased development, xiv, 49, 50, 93, 99
- place and node balance
 - financing components, 85, 101
 - importance of, 5, 32, 45–6
 - Ohlone-Chynoweth Station, 195, 205, 206–7, 207–8
- place making
 - cost of, 93
 - as goal of TOD, 22, 30–2
 - investment in, 101
 - and parking garages, 108–9
 - second generation challenges for, 78–80
 - traffic and parking professionals and, 128
- place-node tension, *see* place and node balance
- planned unit developments (PUD), 64–5
- planning and policy approach, 59–60, 64–9
- planning and regulation
 - case studies, 60–2
- planning framework
 - as factor in success, 59, 150
- planning framework (*continued*)
 - Lindbergh City Center, 189, 191
 - need for, 65–67, 87, 170–1, 226–8
 - Ohlone-Chynoweth Station, 195
 - public sector investment in, 48
 - Rosslyn-Ballston Corridor, 132, 143, 144, 146
 - zoning, 58–80
- planning principles, traffic and parking, 118–23
- planning process, *see* planning framework
- Plano (Texas) transit village, 43, 155, 157, 158
- plans, sector, 146
- plans, specific, 64–65, 198
- plans, station area, 48–9
- players, *see* actors in TOD
- policy framework, *see* planning framework
- "Policy on Transit Joint Development" (FTA), 90
- predevelopment activities, 48, 88–9
- predictors of travel behavior, 24
- project structure, 93–101
- property valuations, 147, 156–7
- public education, 146
- public infrastructure
 - cost of, 167
 - improvements by developers, 137
 - public sector investment in, 48
- public involvement
 - Barrio Logan's Mercado, 216
 - charrettes, 45, 87
 - Lindbergh City Center, 181, 189–90
 - Mockingbird Station, 162, 164
 - Ohlone-Chynoweth Station, 201, 204
 - Rosslyn-Ballston Corridor, 134, 144, 146–47
 - value of, 51–54, 150, 200, 208
- public safety, 217
- public sector investment
 - to leverage private investment, 208
 - in place making, 101
 - in public infrastructure, 166, 168, 170–1
 - as redevelopment catalyst, 133
 - retail projects, 104

public sector investment (*continued*)
 Rosslyn-Ballston Corridor, 135–6,
 137
 staff role in, 90, 134
*Public Transportation and Land Use
 Policy* (Zupan and
 Pushkarev), 24
Pushkarev, Boris, 24

R

rail transit
 as development catalyst, 133,
 150
 rail versus bus debate, 36–7
 traffic and parking generation,
 118
 underutilized lines, xiv
real estate
 development process, 85–6
 investment trusts (REITs), 94
