Bridges, 84, 85
- Calgary, Alberta. *See* Garrison Woods
Calthorpe, Peter, 15, 17, 97, 99
Cars: in U.S., 76; in Vancouver, BC., 143
Case studies: chronological listing, 56; overview, 20–21; Beach, The, 36–39, 56, 81, 82; Coffee Creek Center, 40–43, 56, 125, 126, 128, 133; East Clayton, 56, 69–72; Garrison Woods, 56, 114–15; Heritage Park, 48–51, 56, 69, 88–89, 129, 130, 133; Orenco Station, 5–10, 9, 44–47, 56, 99–100, 101, 102; Playa Vista, 32, 33–35, 56; Prairie Crossing, 56, 132–33, 134; Radburn, 15, 16, 24–27, 56, 79–81; Royal Avenue, 16–18, 19, 56, 65, 84–85; South East False Creek (SEFC), 56, 81–82, 143–47; Stapleton, 28–31, 56, 88–89, 130–31, 133; Village Homes, 6–10, 56, 81–82; Villebois, 52–55, 56, 66–67, 110–11, 116
Chesterton, IN. *See* Coffee Creek Center
Circulation systems, 18, 75, 81–82. *See also* pedestrian circulation
- Clean Water Act, 118, 120–22
CNU (Congress for the New Urbanism), 135
Coffee Creek Center, 40–43, 56, 125, 126, 128, 133
Coffee Lake wetlands, 67, 111
Commercial services: critical mass to support, 96, 98–99; main street retail, 101; mixed, 23; Orenco Station, 100; Royal Avenue, 18; shopping areas, 94, 102, 130; Village Homes, 7. *See also* gray fabric
Compact development: benefits of, 92, 102–3; green, mixed-use communities and, 146–47; integration with green infrastructure, 141–43; in neighborhoods, 94–97, 99; policies, codes, and standards for, 136–37
Compact growth, 5–6, 8–10, 94–95
Complete development, 98–100, 99, 102–3
Congress for the New Urbanism (CNU), 135
Conservation, 8, 64, 137
Context: of compact and livable neighborhoods, 136–37; understanding the, 139–40
Corridors, 63–64, 113–14
Cross-scaled planning, 72; ecological structure and, 67–69; gray fabric, 91; gray networks, 75; green fabric, 104; green networks, 58, 139–40; links in, 130–31; open spaces, 58; water systems, 118
Cul-de-sacs, 80–82
- Dammasch hospital, Wilsonville, 115–16
Davis, CA. *See* Village Homes
Density: in compact neighborhoods, 96–97; comparison of Vancouver, BC. and Seattle, WA, 93; defined, 95; gradients, 97; gross, 21, 24; high, 98; low, 92, 94,

Density (*continued*): 96; medium, 18; and nonmotorized travel choices, 92; Orenco Station, 5; Royal Avenue, 18; Village Homes, 8

Denver, CO. *See* Stapleton

Development: complete, 98–100, 99; complete and compact, 102–3; environmentally oriented policies and regulations, 137; low-density, 92, 96; Low Impact (LID), 132; new urbanist, 14, 96, 97; nodal, 17; partnerships, 142; private sector role in, 68; redevelopment projects, 66–67, 130; residential, 3; sustainable, 58–59, 70, 144; transit-oriented (TOD), 15, 17, 44, 100, 136; urban, 1–2, 61–62, 87. *See also* compact development

Development patterns: green and gray networks as guide, 139; primary influences on, 138; of Radburn, 15; reformation of, with SEFC, 146; sprawling, 4, 61–62, 91–92; suburban, 3–4

Diversity, 97, 100–103

Drainage systems, 9, 19, 70, 88, 124–25. *See also* stormwater management

Dreiseitl, Herbert, 125–26, 127

Duany, Andres, 13, 14

Dwelling types, defined, 22–23. *See also* housing

East Clayton, 56, 69–72

Ecological approach: to managing urban hydrology, 121; to planning, 62–65, 69, 72; to stormwater management, 123–24, 132–33

Ecological corridors, 62

Ecological footprints, 91–92, 105

Ecological forces, 138

Ecological functions, 60

Ecological health, 100

Ecological structure, 65, 66–67

Ecosystems, 61–63, 104, 107–8, 139. *See also* ecological approach

Edges, of neighborhoods, 11–12

Embarcadero, San Francisco, 88

Emerald Necklace, Boston, 60–61

Emissions, vehicle-related, 76–77

Endangered Species Act, 121

Energy conservation, 8

Environmental assets protection, 81–82

Environmental impact reduction, 8

Environmentally sustainable communities, 124–25

Environmental structures, 138

EPA (U.S. Environmental Protection Agency), 119–20

Erosion, 108

Eugene, OR. *See* Royal Avenue

Evapotranspiration, 106

Fairview, Salem, OR, 102

Farmland losses, 93–94

Floor-area ratio, 95

Forests, 104–9, 117, 122

Fragmented systems, 60–62

Fraser River Valley, 71

Garrison Woods, 56, 114–15

Gasoline consumption, 74, 75, 77

Gray fabric, 18–19, 91, 103, 148–49. *See also* case studies

Grayhurst, IL. *See* Prairie Crossing

Gray networks: across scales, 75; characteristics of, 148; as civic amenities, 89; as construct of green neighborhoods, 18–19; green and, 126, 131, 139; green streets in, 82–83; impact on pollution, 75–77; infrastructure as, 87; strategies for, 90. *See also* case studies

Greater Vancouver Regional District (GVRD), 69, 71–72, 98, 140

Green: achievement of, 149–50; and compact growth, 8–10; definition of, 147; thinking, seeing, and knowing, 138–39

Greenbelts, 14, 15

Green fabric, 18–19, 104, 117, 149

Green growth, 6–10

Green infrastructure, 58–60, 107–9, 141–42, 144

Green neighborhoods, 14–16, 147–50

Green networks: across scales, 58; characteristics of, 148; as construct of green neighborhood, 18–19; contributions of, 68–69; defined, 59–60; as fragmented systems, 62–64; gray and, 126, 131, 139; at metropolitan scale, 139; at neighborhood scale, 72, 139; planning of, 65;

Green networks (*continued*): as spatial pattern, 14–15; strategies for, 73; in U.S. history, 60–61. *See also* case studies

Green strategies, 73, 90, 103, 117, 134

Green streets, 82–85, 109–12, 116–17, 132

Green urbanism, 62–64

Greenways, 7, 67, 85, 130, 132

Green wedge, 14, 15

Green Zone, GVRD, 69, 71–72, 98, 140

Grid-based street networks, 79, 80, 81, 99–100

Gross density, 21, 24, 95

Groundwater, 119, 121, 122

Guadalupe River Park, San Jose, 128, 129

GVRD. *See* Greater Vancouver Regional District (GVRD)

Habitat and habitat patches, 63–64, 106–7, 121, 146

Hargreaves Associates, 128, 129

Heritage Park, 48–51, 56, 69, 88–89, 129, 130, 133

High-density regional centers, 98

Hillsboro, OR. *See* Orenco Station

Hough, Michael, 123–24

Housing: diversity, 97; dwelling types, defined, 22–23; ground-oriented, low-rise, 96; high-rise, 96; new developments, 136–37; Orenco Station, 100; suburban model, 2

Hybrid networks, 80–82

Hydrological restoration, 129

Hydrologic cycle, 122–23, 123

Impervious surfaces, 83, 86–87, 111–12, 119

Industrial uses, 23. *See also* gray fabric

Infrastructure, 9, 74, 87–88, 88. *See also* green infrastructure

Kitsilano neighborhood, 86, 96–97

Laguna West TOD, 97

Lake Hills Greenbelt Park, 124–25

Land conservation, 8

Landscape ecology, 62–64, 67–69

Landscape structure, defined, 63–64

Land use: comparison of Village Homes and Orenco Station, 9; designations and definitions, 21–23; environmental forces and, 138; graphic coding in case studies, 21; mixed, 101; planning, 64; and vehicle miles traveled (VMT), 92; widely dispersed, 74–75. *See also* case studies; development patterns

Livability, 3–4, 87, 103

Livable Region Strategic Plan (GVRD), 72

Living First strategy, 141–42

Loops and lollipops network, 79–81

Los Angeles, CA. *See* Playa Vista

Low-density development, 94, 96

Low Impact Development (LID), 132

Lynch, Kevin, 14, 99

Maple Ridge, Vancouver, 95

Metro (Oregon), 65–67, 84, 109–10, 121

Minneapolis, MN, 61, 82, 88–89, 128–29. *See also* Heritage Park

Mixed use, 23, 77, 94, 101, 102. *See also* gray fabric

National Pollutant Discharge Elimination System, 120

Natural approach. *See* ecological approach

Natural areas: defined, 22; hydrologic cycle of, 123; at neighborhood scale, 68; in new urbanist development, 14; in transit-oriented development prototype, 17; viable, 64. *See also* green networks

Natural patterns, integration with built, 16, 18, 19

Nature-based approach. *See* ecological approach

Neighborhood centers, 96, 98–99

Neighborhoods: building blocks, 11, 91; compact, 94–97, 99; complete, 98–100; defined, 11; diagrammatic comparison, 12, 13, 14; diversity in, 100–103; grid-based, 79; national planning standards for, 12–13; new, 141–42; physical conditions, 12; recent design concepts, 99; redeveloped, 114; South East False Creek, 145; in suburban locations, 100; trees and image, 113. *See also* case studies; green neighborhoods

Neighborhood scale, 68, 135–36

Nested scales, 67–69, 139–40

New Urbanism, 13–14, 88, 96–97, 101, 135

Nodal development prototype, 17
 Nonmotorized travel, and density, 92

Olmsted, Frederick Law, 60, 113
 Olympic Village, 146. *See also* South East False Creek (SEFC)

Open spaces: cross-scaled planning for, 58; defined, 21–22; disconnected network, 60; drainage system integrated with, 9, 124–25; loss comparison, Portland metropolitan areas, 93–94; Northwest Landing, 82; as problematic term, 57–58; reconsideration of role in urban design, 137–38; Royal Avenue, 18; South East False Creek, 144, 145; spatial patterns of, 14, 15; urban, 58; Village Homes, 6–7

Orenco Station, 5–10, 9, 44–47, 56, 99–100, 101, 102

Parks and open spaces, 22, 124–25, 144.
See also green networks

Patches, 63–64

Patterns, integration of natural and built, 16, 18, 19

Pedestrian circulation: Coffee Creek Center, 128; defined, 22; in grid-based street network, 80; Heritage Park, 89; in hybrid network, 81–82; in mixed-use retail areas, 101; Robson Street, 114; Royal Avenue, 85; Village Homes, 7; walking trail through wetland, 125

Perry, Clarence, 12, 13

Philadelphia, PA, 112

Phytoremediation, 108
