

Note: Botanical names are shown in italics, family names in Roman bold type, and common names in Roman type. Italicized page numbers indicate illustrations or photographs.

## A

*Abietinella abietina* (Hedw.)  
Fleisch., 149–150  
abietinella moss, 149–150  
*Abrothallus parmiliarum*  
(Sommerf.) Nyl. (1869),  
111  
acuteleaf dicranum moss, 156  
**Agaricaceae**, 71–73  
agaricoid fungi, 8, 15, 40  
**Albatrellaceae**, 83  
*Albatrellus ovinus* (Schaeff.)  
Kotl. and Pouzar (1957),  
83  
alpine paw lichen, 124–125  
*Amanita muscaria* subsp.  
*flavovolvata* Singer  
(1958)  
*Amanita muscaria* var. *muscaria*  
(L.) Lam. (1783), 41–42  
*Amanita muscaria* var. *regalis*  
(Fr.) Sacc. (1887), 42–43  
*Amanita vaginata* f. *vaginata*  
(Bull.) Lam. (1783)  
**Amblystegiaceae**, 159, 167  
angled paludella moss, 162  
anise-odor polypore, 86  
arctic bryum moss, 152–153  
arctic fingers, 131–132  
arctic tumbleweed, 128–129  
*Arcyria incarnata* (Pers. ex  
J.F.Gmel.) Pers. (1796),  
137  
*Armillaria ostoyae* (Romagn.)  
Herink (1973), 52–53  
*Arrhenia lobata* (Pers.) Kühner  
and Lamoure ex Redhead  
(1984), 92–93  
*Arthonia clemens* (Tul.) Th. Fr.  
(1867), 111  
*Arthonia stereocaulina* (Ohlert)  
R. Sant. (1993), 112  
**Arthoniaceae**, 111–112  
artist's conk, 81  
ascolichens  
crustose, 123–124  
foliose, 124–125  
fruticose, 127–128  
**Ascomycota**, 111

**Atheliaceae**, 80  
**Aulacomniaceae**, 150–151  
aulacomnium moss, 150  
*Aulacomnium palustre* (Hedw.)  
Schwaegr., 150  
*Aulacomnium turgidum*  
(Wahlenb.) Schwaegr.,  
150–151  
**Auriscalpiaceae**, 89–90

## B

*Badhamia utricularis* (Bull.)  
Berk. (1852), 137–138  
**Bankeraceae**, 87–88  
basidiolichens, 133–135  
bear-dung moss, 172–173  
bear's bread, 84  
belted slimy cortinarius, 63–64  
**Bionectriaceae**, 115  
birch bolete, 78–79  
birch polypore, 84–85  
bird's nest, 8, 98  
bird's nest fungus, 98–99  
*Bjerkandera adusta* (Willd.) P.  
Karst. (1880)  
black birch conk, 82–83  
black golf-club moss, 153–154  
black scurfy fairy cup, 105  
*Blepharostoma trichophyllum*  
(L.) Dumort, 175–176  
**Blepharostomaceae**, 175–176  
boggy birch bolete, 77–78  
**Bolbitiaceae**, 73–74  
**Boletaceae**, 74–79  
bolete eater, 106  
boletes, 8, 74–79  
boletinoid fungi, 8, 74–79  
*Boletus edulis* Bull. (1782), 74–  
75  
*Bovista plumbea* Pers. (1795),  
96–97  
**Brachytheciaceae**, 151–152,  
175  
*Brachythecium albicans*  
(Hedw.) Bruch, Schimp.  
and W. Gümbel, 151  
brachythecium moss, 151, 152

*Brachythecium plumosum*  
(Hedw.) Schimp., 151–  
152  
bracket-inhabiting fungi, 8, 80–  
86  
branch stub polypore, 82  
bristly pholiota, 67–68  
brown and yellow bolete, 75–76  
**Bryaceae**, 152–153, 160–161  
bryophytes  
ecological importance of,  
147–149  
introduction to, 145–146  
mosses, liverworts and  
hornworts compared,  
146–147  
of North America, 149  
*see also individual species*  
*Bryum arcticum* (R. Br.) Bruch  
& Schimp., 152–153  
burnt-ground pholiota, 66–67

## C

*Calvatia booniana* A.H. Sm.  
(1964), 95–96  
**Campyliaceae**, 153  
*Campyllum stellatum* (Hedw.)  
C. Jens., 153  
candy lichen, 123–124  
cantharelloid fungi, 8, 92–93  
*Cantharellula umbonata* (J.F.  
Gmel.) Singer (1936), 53–  
54  
carnival candy slime mold, 137  
**Catascopiaceae**, 153–154  
*Catascopium nigratum* Brid.,  
153–154  
cep, 74–75  
*Ceratiomyxa fruticulosa* (O.F.  
Müll.) T. Macbr. (1799),  
138  
**Ceratiomyxaceae**, 138  
ceratodon moss, 154–155  
*Ceratodon purpureus* (Hedw.)  
Brid., 154–155  
*Cercidospora stereocaulorum*  
(Arnold) Hafellner  
(1987), 112

- Cerrena unicolor* (Bull.) Murrill (1903)  
changeable tricholoma, 56–57  
chanterelle fungi, 8, 92–93  
chicken of the woods, 68–69  
*Chrysomyxa arctostaphyli* Dietel (1894), 102  
*Chrysomyxa ledicola* Lagerh. (1893), 101  
*Cladonia bellidiflora* (Ach.) Schaer. (1923), 130–131  
*Cladonia deformis* (L.) Hoffm. (1796), 131  
*Cladonia rangiferina* (L.) F.H. Wigg., 129  
*Cladonia stellaris* (Opiz) Brodo (1976), 129–130  
**Cladoniaceae**, 129–131  
clamshell slime mold, 143  
**Clavariaceae**, 133  
*Clavariadelphus ligula* (Schaeff.) Donk (1933), 90  
*Clavariadelphus pistillaris* (L.) Donk (1933), 90  
*Clavicornia pyxidata* (Pers.) Doty (1947), 89–90  
clean mycena, 58  
**Climaciaceae**, 155  
*Climacium dendroides* (Hedw.) F. Weber and D. Mohr, 155  
club fungi, 8, 89–92  
Coleosporiaceae, 101  
*Collybia dryophila* (Bull.) P. Kumm. (1871), 54  
comb tooth, 89  
common club coral, 90  
common cortinarioid, 63–64  
common cudonia, 108–109  
common fiber vase, 93–94  
common laccaria, 56  
common liverwort species, 175–179  
common puffball, 97  
cone-shaped hygrocye (hygrophorus), 43–44  
conic hygrocye (hygrophorus), 43–44  
conifer cystoderma, 55–56  
conifer rust fungi, 8, 101  
*Coprinus* aff. *patouillardii* Qué. (1884), 73  
*Coprinus atramentarius* (Bull.) Fr. (1838), 70–71  
*Coprinus comatus* (O.F. Müll.) Gray (1797), 71–72  
*Coprinus micaceus* (Bull.) Fr. (1838), 72  
coral slime mold, 138  
coraloid fungi, 8, 89–92  
*Corticifraga peltigerae* (Fuckel) D. Hawksw. and R. Sant. (1990), 113  
**Cortinariaceae**, 60–65  
*Cortinarius* aff. *mucosus* (Bull.) Cooke (1867), 62–63  
*Cortinarius* (Dermocybe) aff. *croceus* (Schaeff.) Gray (1821), 61–62  
*Cortinarius* (Sericeocybe) *alboviolaceus* (Pers.) Fr. (1838), 60–61  
*Cortinarius trivialis* J.E. Lange (1940), 63–64  
*Craterium leucocephalum* (Pers. ex J.F.Gmel.) Ditmar (1812), 139  
*Crepidotus mollis* (Schaeff.) Staude (1857), 64  
*Cribraria argillacea* (Pers. ex J.F.Gmel.) Pers. (1794), 140  
**Cribrariaceae**, 140  
crown-tipped coral, 89–90  
*Cudonia circinans* (Pers.) Fr. (1849), 108–109  
**Cudoniaceae**, 108–109  
cup fungi, 8, 103–107  
*Cystoderma amianthinum* (Scop.) Fayod (1889), 54–55  
*Cystoderma fallax* A.H. Sm. and Singer (1945), 55–56
- D  
**Dacampiaceae**, 116–117  
*Dactylina arctica* (Hook. f.) Nyl. (1860), 131–132  
dark flaky inky cap, 70–71  
deer mushroom, 59  
delicious lactarius, 46  
deuteromycetes, 114, 120–121  
**Dicranaceae**, 156–157  
*Dicranum acutifolium* (Lindb. and Arn.) C. Jens., 156  
dicranum moss, 156–157, 157  
*Dicranum polysetum* Swartz, 156–157  
*Dicranum scoparium* Hedw., 157  
**Didymiaceae**, 142  
**Discinaceae Benedix**, 107  
*Distichium capillaceum* (Hedw.) Bruch & Schimp., 157–158  
distichium moss, 157–158  
**Ditrichaceae**, 154–155, 157–158  
*Ditrichum flexicaule* (Schwaegr.) Hampe, 158  
ditrichum moss, 158  
**Dothideomycetes**, 112  
downy land coral, 132–133  
drepanocladus moss, 159  
*Drepanocladus* sp., 159  
dung stropharia, 69–70
- E  
earth tongue fungi, 8, 107–108  
earthstars, 8, 99–100  
edible bolete, 74–75  
emetic russula, 50  
entire-leaf nitrogen moss, 174–175
- F  
fairy fan, 109  
fairy lichen, 123–124  
false blusher, 42–43  
false "British soldiers," 130–131  
false morel, 107  
false orange, 41–42  
fawn-colored pluteus, 59  
*Flavocetraria nivalis* (L.) Kärnefelt and A. Thell (1994), 127–128  
flecked-flesh polypore, 81–82  
fleshy pored fungi, 8, 74–79  
fly agaric, 41–42  
fly (poison) amanita, 41–42  
*Fomes fomentarius* (L.) J.J. Kickx (1867), 83–84  
**Fomitopsidaceae**, 84–85  
*Fomitopsis pinicola* (Sw.) P. Karst. (1881), 84  
fragile moose nugget inky cap, 73

*Fuligo septica* (L.) F.H. Wigg.  
(1780), 140–141  
fungus-loving slime mold, 137–  
138

## G

*Galerina* aff. *paludosa* (Fr.)  
Kühner (1935) (Fig. 88),  
64–65  
*Galerina* aff. *sphagnicola* (G.F.  
Atk.) A.H. Sm. and  
Singer (1964)  
*Ganoderma applanatum* (Pers.)  
Pat. (1887), 81

### **Ganodermataceae**, 81

gasteroid fungi, 8, 95  
*see also individual species*  
gasteromycetes, 8, 95  
*see also individual species*

### **Geastraceae**, 99–100

*Geastrum mammosum* De Toni,  
99–100

*Geltingia associata* (Th. Fr.)  
Alstrup and D. Hawksw.  
(1990), 113–114

gemmed puffball, 97

*Geopyxis carbonaria* (Alb. and  
Schwein.) Sacc. (1889),  
104

giant alpine puffball, 95–96  
gilled (agaricoid) fungi, 8, 15,  
40

Girgensohn's sphagnum, 170–  
171

glistening inky cap, 72

*Gloeopeniophora aurantiaca*  
Höhn. (1908), 80–81

goat pholiota, 68–69

golden pholiota, 66

golf tee lichen, 131

### **Gomphaceae**, 90–92

grape-colored lactarius, 47

gray caribou lichen, 129

gray ink-cap, 70–71

gray-brown chanterelle, 92–93

green lobster, 106–107

gypsy pholiota, 68–69

*Gyromitra infula* (Schaeff.)  
Quél. (1886), 107

## H

hair-cap moss, 164–165

hairy-based fairy club, 90

handsome yellow-tipped coral,  
91

hedgehog fungi, 8, 87–89

*Helvella corium* (O. Weberb.)  
Masse (1895), 104–105

### **Helvellaceae**, 104–105

hemispheric stropharia, 69–70

### **Hericiaceae**, 88–89

*Hericium coralloides* (Bull.)  
Letell. (1826), 88–89

hollow foot, 79

hollow-stiped bolete, 79

honey mushroom, 52–53

honey-colored mushroom, 52–  
53

hornworts, 146–147

horsetail, 71–72

Hudson's basidiolichen, 134

*Hydnellum suaveolens* (Scop.)  
P. Karst. (1880), 87–88

*Hygrocybe conica* (Scop.) P.  
Kumm. (1871), 43–44

### **Hygrophoraceae**, 44–45

hygrophorus, 43–44

*Hygrophorus eburneus* (Bull.)  
Fr. (1838), 44

*Hygrophorus olivaceoalbus* (Fr.)  
Fr. (1838), 44–45

### **Hylocomiaceae**, 160, 163–164

*Hylocomium splendens* (Hedw.)  
Schimp., 160

### **Hymenochaetaceae**, 81–83

hymenomycetes, 40

*see also individual species*

*Hypholoma* (Naematoloma)  
*udum* (Pers.) Kühner  
(1877), 69

### **Hypnaceae**, 165–166

### **Hypocreaceae**, 106–107

*Hypomyces chrysospermus* Tul.  
and C. Tul. (1860), 106

*Hypomyces tulasneanus* Plowr.  
(1882), 106–107

## I

*Icmadophila ericetorum* (L.)  
Zahlbr. (1895), 123–124

### **Icmadophilaceae**, 123–124

*Illosporium carneum* Fr. (1829),  
114

inky cap, 71–72

inky eggs, 71–72

*Inocybe geophylla* var.  
*geophylla* (Pers.) P.  
Kumm. (1871), 65

*Inonotus tomentosus* (Fr.) Teng  
(1964)

inrolled paxillus, 60

involute paxillus, 60

*Ischnoderma resinosum*  
(Schrad.) P. Karst. (1880)

ivory hygrophorus, 44

## J

jelly crepidotus, 64

jelly fungi, 8, 102–103

### **Jungermanniaceae**, 178

juniper polytrichum moss, 165

## K

king bolete, 74–75

Knight's plume moss, 166

## L

*Laccaria laccata* (Scop.) Fr.  
(1884), 56

*Lactarius aspidius* (Fr.) Fr.  
(1838), 45–46

*Lactarius deterrimus* (Gröger)  
Hesler and A.H. Sm.  
(1979), 46

*Lactarius maculatus* Peck  
(1891), 47

*Lactarius repraesentaneus*  
Britzelm. (1885), 47–48

*Lactarius rufus* (Scop.) Fr.  
(1838), 48–49

lawyer's wig, 71–72

lead shot slime mold, 140

leaf tar spots, 105

lecanoromycetes, 113

*Leccinum atrospitatum* A.H.  
Sm., Thiers and Watling  
(1966), 76–77

*Leccinum aurantiacum* (Bull.)  
Gray (1821)

*Leccinum rotundifoliae* (Singer)  
A.H. Sm., Thiers and  
Watling (1967), 77–78

*Leccinum scabrum* (Bull.) Gray  
(1821), 78–79

leptobryum moss, 160–161

*Leptobryum pyriforme* (Hedw.)  
Wilson, 160–161

lichenicolous fungi, xx, 9, 110  
  *see also individual species*  
lichenized fungi, xx, 9, 122  
  *see also individual species*  
*Lichenomphalia alpina*  
  (Britzelm.) Redhead,  
  Lutzoni, Moncalvo and  
  Vilgalys (2002), 133–134  
*Lichenomphalia hudsoniana*  
  (H.S. Jenn.) Redhead,  
  Lutzoni, Moncalvo and  
  Vilgalys (2002), 134  
*Lichenomphalia umbellifera* (L.)  
  Redhead, Lutzoni,  
  Moncalvo and Vilgalys  
  (2002), 135  
*Lichenosticta alcornaria*  
  (Lind.) D. Hawksw.  
  (1980), 114  
lichens, 9, 122–123  
  *see also individual species*  
light cortinarius, 60–61  
little white inocybe, 65  
liverworts, xxi, 146–147  
*Lophozia* sp. (Dum.) Dum.,  
  176–177  
**Lophaziaceae**, 176–177  
*Lycogala epidendrum* (L.) Fr.  
  (1829), 141  
**Lycogalaceae**, 141  
**Lycoperdaceae**, 95–97  
*Lycoperdon perlatum* Pers.  
  (1796), 97  
  
M  
maned agaric, 71–72  
many-fingered vein lichen, 126–  
  127  
*Marchantia latifolia* Gray, 177–  
  178  
**Marchantiaceae**, 178–179  
*Masonhalea richardsonii*  
  (Hook.) Kärnefelt (1977),  
  128–129  
**Meesiaceae**, 162  
*Melanoleuca melaleuca* (Pers.)  
  Murrill (1911), 56–57  
mica cap mushroom, 72  
*Microcollybia tuberosa* (Bull.)  
  Lennox (1979), 57–58  
milky lactarius, 46  
miniature earth tongue, 108  
mitosporic fungi, 114, 120–121

*Mitrula borealis* Redhead  
  (1977), 108  
**Mniaceae**, 161  
*Mnium thomsonii* Schimp., 161  
mock oyster, 79  
moose dung panaeolus, 73–74  
moss hypholoma, 69  
mosses, compared to liverworts  
  and hornworts, xxi, 146–  
  147  
*Mucilago crustacea* F.H. Wigg.  
  (1780), 142  
*Multiclavula mucida* (Pers.)  
  R.H. Petersen (1967), 133  
mushrooms, xx, 52–53, 58–59,  
  72  
*Mycena pura* (Pers.) P. Kumm.  
  (1871), 58  
mycetozoans, 9, 136–144  
**Mycosphaerellaceae**, 118–119,  
  119–120  
*Myliia anomala* ((Hook.) S.  
  Gray, 178  
myxomycetes (slime molds), 9,  
  136  
  
N  
*Nectriopsis lecanodes* (Ces.)  
  Diederich and Schroers  
  (1999), 115  
*Nephroma expallidum* (Nyl.)  
  Nyl. (1865), 124–125  
**Nephromataceae**, 124–125  
*Nesolechia cetraricola* (Linds.)  
  Arnold (1874), 115  
nest-cap mushroom, 58–59  
*Nidularia* aff. *farcta* (Roth) Fr.  
  (1823), 98–99  
**Nidulariaceae**, 98–99  
**Nitschkiaceae**, 117  
northern moss clitocybe, 53–54  
northern rock tripe, 127  
nut-brown collybia, 54  
  
O  
**Odontotremataceae**, 113–114  
old man of the woods, 56  
olive hygrophorus, 44–45  
olive yellow cortinarius, 61–62  
olive-green calcareous moss,  
  161  
orange mock oyster, 58–59  
orange-latex, 46

**Orthotrichaceae**, 161–162  
*Orthotrichum speciosum* Nees in  
  J.W. Sturm, 161–162

P  
painted crust, 80–81  
pale cortinarius, 60–61  
*Paludella squarrosa* (Hedw.)  
  Brid., 162  
*Panaeolus* aff. *acuminatus*  
  (Schaeff.) Quél. (1874),  
  73–74  
panther, 42–43  
panther cap, 42–43  
parasitic fungi on lichens, 9,  
  110–121  
**Parmeliaceae**, 115–116, 127–  
  129, 131–132  
paw lichen, 124–125  
**Paxillaceae**, 60  
*Paxillus involutus* (Batsch) Fr.  
  (1838), 60  
*Peltigera aphthosa* (L.) Willd.  
  (1787), 125–126  
*Peltigera neopolydactyla*  
  (Gyeln.) Gyeln. (1932),  
  126–127  
**Peltigeraceae**, 125–127  
*Peniophora rufa* (Pers.) Boidin  
  (1958)  
**Peniophoraceae**, 80–81  
peppermint drop lichen, 123–  
  124  
*Perichaena minor* (G. Lister)  
  Hagelst. (1943), 142–143  
*Phacopsis oxyspora* (Tul.)  
  Triebel and Rambold  
  (1988), 115–116  
*Phellinus igniarius* (L.) Quél.  
  (1886), 81–82  
*Phellinus pini* (Brot.)  
  Bondartsev and Singer  
  (1941), 82  
*Phellinus tremulae* (Bondartsev)  
  Bondartsev and P.N.  
  Borisov (1953), 82–83  
*Pholiota aurivella* (Batsch) Fr.  
  (1871), 66  
*Pholiota carbonaria* A.H. Sm.  
  (1944), 66–67  
*Pholiota squarrosoides* (Peck)  
  Sacc. (1887), 67–68

*Phyllotopsis nidulans* (Pers.)  
Singer (1936), 58–59  
**Physaraceae**, 137–138, 139,  
140–141, 143  
*Physarum bivalve* Pers. (1795),  
143  
**Pilocarpaceae**, 117–118  
pink mycena, 58  
pinkish coral, 91  
*Piptoporus betulinus* (Bull.) P.  
Karst. (1881), 84–85  
pixie cup, 104  
**Plagiotheciaceae**, 163  
*Plagiothecium laetum* Bruch,  
Schimp. and W. Gümbel,  
163  
plagiothecium moss, 163  
plasmoidal slime molds, *xxi*, 9,  
136  
*see also individual species*  
*Pleurozium schreberi* (Brid.)  
Mitt., 163–164  
*Plicatura nivea* (Sommerf.) P.  
Karst. (1889), 80  
*Plicaturopsis crispa* (Pers.) D.A.  
Reid (1964)  
**Pluteaceae**, 41–43, 59  
*Pluteus cervinus* P. Kumm.  
(1871), 59  
poison paxillus, 60  
*Polycoccum bryonothae* (Arnold)  
Vezda (1969), 116  
*Polycoccum tryphelioides* (Th.  
Fr.) R. Sant. (1960), 116–  
117  
**Polyporaceae**, 83–85, 86–87  
polypores, 8, 80–87  
polyporoid fungi, 8, 80–87  
*Polyporus alveolaris* (DC.)  
Bondartsev and Singer  
(1941)  
*Polyporus brumalis* (Pers.) Fr.  
(1818), 85  
**Polytrichaceae**, 164–165  
*Polytrichum commune* Hedw.,  
164–165  
*Polytrichum juniperinum*  
Hedw., 165  
polytrichum moss, 164–165  
porcini, 74–75  
*Preissia quadrata* (Scop.) Nees,  
178–179  
**Psathyrellaceae**, 70–71

**Ptilidiaceae**, 179  
*Ptilidium ciliare* (L.) Hampe,  
179  
*Ptilium crista-castrensis*  
(Hedw.) De Not.  
*Ptillium crista-castrensis*  
(Hedw.) De Not., 165–  
166  
**Pucciniaceae**, 102  
puffballs, 8, 95–97  
purple-red alpine russula, 50–51  
**Pyronemataceae**, 104  
  
Q  
quaking aspen bolete, 76–77  
  
R  
*Ramaria* aff. *rasilispora* Marr  
and D.E. Stuntz (1974),  
91–92  
*Ramaria formosa* (Pers.) Quél.  
(1888), 91  
red lactarius, 48–49  
red-belted polypore, 84  
red-fruited trumpet lichen, 131  
red-stemmed feather moss, 163–  
164  
reindeer lichen, 129  
*Rhagadostoma lichenicola* (De  
Not.) Keissl. (1930), 117  
**Rhytidiaceae**, 166–167  
rhytidium moss, 166–167  
*Rhytidium rugosum* (Hedw.)  
Kindb., 166–167  
*Rhytisma salicinum* var.  
*arcticum* P. Karst. (1871),  
105  
**Rhytismataceae**, 105  
round head stropharia, 69–70  
*Rozites caperatus* (Pers.) P.  
Karst. (1879), 68–69  
Russow's sphagnum, 171  
*Russula aeruginea* Fr. (1863),  
49  
*Russula* aff. *emetica* (Schaeff.)  
Pers. (1796), 50  
*Russula* aff. *subfoetens* Wm.G.  
Sm. (1873), 51–52  
*Russula nana* Killerm. (1936),  
50–51  
**Russulaceae**, 45–52  
rusts, 8, 101–102

S  
sac fungi, 8, 103–107, 107–108  
sanionia moss, 167  
*Sanionia uncinata* (Hedw.)  
Warnst., 167  
saprophytic fungi on lichens, 9,  
110–121  
*Sarcodon* (Hydnum) *imbricatus*  
(L.) P. Karst. (1881), 88  
scaly pholiota, 67–68  
scaly tooth, 88  
*Schizopora paradoxa* (Schrad.)  
Donk (1967), 85–86  
**Schizoporaceae**, 85–86  
Schreber's big red stem moss,  
163–164  
**Sclerotiniaceae**, 108  
scrambled-egg slime mold, 140–  
141  
*Scutula stereocaulorum* (Anzi)  
Körb. (1865), 117–118  
shaggy beard, 71–72  
shaggy mane, 71–72  
sharp-scale pholiota, 67–68  
sheep polypore, 83  
shiny cortinarius, 62–63  
sickener, the, 50  
silver-violet cortinarius, 60–61  
slightly ill-smelling russula, 51–  
52  
slime molds, *xxi*, 9, 136  
*see also individual species*  
slimy pholiota, 66  
slimy-sheathed waxy cap, 44–45  
smooth, stalked puffball, 96–97  
snow lichen, 128  
snow-white crust, 80  
soft crepidotus, 64  
*Spathularia flavida* Pers. (1794),  
109  
*Sphaerellothecium araneosum*  
(Rehm) Zopf n.d., 118  
*Sphaerellothecium minutum*  
Hafellner (1993), 118–  
119  
**Sphagnaceae**, 169–172  
*Sphagnum angustifolium*  
(Russow) C. Jensen, 169  
sphagnum family, 169–172  
*Sphagnum fuscum* (Schimp.) H.  
Klinggr., 169–170  
sphagnum galerina, 64–65

*Sphagnum girgensohnii* Russow,  
170–171  
*Sphagnum russowii* Warnst.,  
171  
*Sphagnum* section: acutifolia,  
169–171  
*Sphagnum* section: cuspidata,  
168–169  
*Sphagnum* section: squarrosa,  
172  
*Sphagnum* species (peat  
mosses), 167–168  
*Sphagnum squarrosum* Crome,  
172  
*Sphinctrina turbinata* (Pers.) De  
Not. (1846), 119  
**Sphinctrinaceae**, 119  
spiny fungi, 8, 87–89  
**Splachnaceae**, 172–175  
*Splachnum luteum* Hedw., 172–  
173  
split-pored polypore, 85–86  
sponge fungi, 8, 74–79  
spraypaint lichen, 123–124  
spruce broom rust, 102  
spruce needle rust, 101  
stair-step feather moss, 160  
stalked cup slime mold, 139  
star campyllum moss, 153  
star-tipped reindeer lichen, 129–  
130  
steinpiltz, 74–75  
**Stereocaulaceae**, 132–133  
*Stereocaulon tomentosum* Th.  
Fr. (1825), 132–133  
*Stigmidium conspurcans* (Th.  
Fr.) Triebel and R. Sant.  
(1989), 119–120  
stomach fungi, 8, 95, 98–99  
*Stropharia semiglobata* (Batsch)  
Quél. (1872), 69–70  
**Strophariaceae**, 66–70  
studded vein lichen, 125–126  
**Suillaceae**, 79  
*Suillus cavipes* (Opat.) A.H. Sm.  
and Thiers (1964), 79  
sweet blue tooth, 87–88

T  
tacky green russula, 49  
*Taeniolella beschiana* Diederich  
(1992), 120

*Taeniolella pertusariicola* D.  
Hawksw. and H.  
Mayrhofer (1990), 120–  
121  
*Tetraplodon angustatus* (Hedw.)  
Bruch, Schimp. and W.  
Gümbel, 173–174  
*Tetraplodon mnioides* (Hedw.)  
Bruch, Schimp. and W.  
Gümbel, 174–175  
*Thelephora terrestris* Ehrh.  
(1786), 93–94  
**Thelephoraceae**, 93–94  
thelephoroid fungi, 8, 93–94  
**Thelocarpaceae**, 121  
*Thelocarpon epibolum* Nyl.  
(1866), 121  
**Thuidiaceae**, 149–150  
tinder polypore, 83–84  
tippler's bane, 70–71  
*Tomentophnum nitens* (Hedw.)  
Loeske, 175  
tomentypnum moss, 175  
toothed fungi, 8, 87–89  
toothed-leaf nitrogen moss,  
173–174  
*Trametes suaveolens* (L.) Fr.  
(1838), 86  
tree climacium moss, 155  
trembling bolete, 76–77  
*Tremella mesenterica* Retz.  
(1769), 103  
**Tremellaceae**, 103  
*Trichaptum bifforme* (Fr.)  
Ryvarden (1972), 86–87  
*Trichia varia* (Pers.) Pers.  
(1794), 144  
**Trichiaceae**, 137, 142–143, 144  
**Tricholomataceae**, 43–44, 53–  
59, 92–93, 133–135  
true caribou lichen, 129  
tuberous collybia, 57–58  
turgic aulacomnium moss, 150–  
151

U  
*Umbilicaria hyperborea* (Ach.)  
Hoffm. (1796), 127  
**Umbilicariaceae**, 127  
umbrella basidiolichen, 135  
unspotted cystoderma, 54–55

V  
vase fungi, 8, 93–94  
violet-toothed polypore, 86–87  
viscid "flammula," 66–67

W  
warted slime mold, 142–143  
waxy laccaria, 56  
western giant puffball, 95–96  
white crust slime mold, 142  
white fiber head, 65  
winter polypore, 85  
witch's butter, 103  
witch's hat, 43–44  
wolf's milk slime mold, 141  
wood-inhabiting fungi, 8, 80–86  
wrinkled Pholiota, 68–69

X  
*Xerocomus subtomentosus* (L.)  
Fr. (1821), 75–76

Y  
yellow basidiolichen, 133–134  
yellow coral, 92  
yellow moose moss, 172–173  
yellow mushroom lichen, 133–  
134  
yellow northern spruce lactarius,  
47–48  
yellow tundra lactarius, 45–46  
yellow wood drops slime mold,  
144
